SUMMARY

IT Graduate (**Magna Cum Laude**) specializing in **AWS Cloud Infrastructure** and Full-Stack Development. Recently completed an AWS Cloud Internship at Accenture, focusing on secure **VPC** architecture and enterprise-grade web applications with **Laravel** and **React**.

EXPERIENCES

Feb 2026 - April 2026

AWS Cloud Intern, Accenture

- Architected a secure, multi-tier **VPC environment** using **public** and **private subnet** partitioning to isolate sensitive database workloads.
- Configured network routing by implementing **NAT Gateways** and an **Internet Gateway (IGW)**, enabling private instances to fetch updates securely while remaining shielded from external exposure.
- Enforced granular security via **NACLs** and **Security Groups** to regulate traffic flow at both the subnet and instance levels.

Feb 2020 - January 2025

Video Editor / Video Template Creator, The 360 Project - Videobooth Philippines

- Managed the end-to-end production lifecycle of 360° video projects from 2020 to 2025, handling everything from initial requirement gathering to final delivery.
- As the sole editor during my final year, I engineered dynamic motion graphics and high-impact visual layers using Adobe Creative Suite to meet specific client motifs.

PROJECTS

BulSU InternConnect

- Built a **Laravel/React TS** internship platform with a **Cron-scheduled** matching engine and **RBAC** for Admins/Students to automate deadline-sensitive placements and notifications.

Survey Builder

- Developed a **Python/Django** survey tool with a **JS** drag-and-drop builder and **RBAC** for Teachers/Students to securely manage custom forms and real-time analytics.

CERTIFICATION & BADGE

- [AWS Academy Graduate - Cloud Architecting | Badge \(Apr 27, 2026\)](#)
- [AWS Academy Graduate - Generative AI Foundations | Badge \(Mar 24, 2026\)](#)
- [AWS Academy Graduate - Cloud Foundations | Badge \(Feb 26, 2026\)](#)
- [Cisco: Introduction to Cybersecurity | Badge \(Sep 30, 2025\)](#)

SKILLS

- Cloud (AWS): **VPC, EC2, S3, RDS, IAM, NAT Gateway, NACLs, CloudFormation**
- Development: **Laravel, PHP, Python, Django, Tailwind, CSS, Java, C#, C++, ReactJS/TS, JavaScript, TypeScript**
- Database, OS & Others: **MySQL, Arch Linux, Git, Vercel, TiDB**

EDUCATION

Bulacan State University (Malolos Campus), 2022 - 2026 (College)

Bachelor of Science in Information Technology

- Magna Cum Laude (GWA 1.38)
- Specialized in **Web and Mobile Application Development**

Marcelo H. Del Pilar National Highschool, 2015 - 2021 (JHS - SHS)

Science Technology Engineering and Mathematics

- GWA: 87 / 100
